

Codekata Report:

Name: Paramesh Kumar S

Email: svpparameshkumar2004@gmail.com

1. Problem Statement: Write a code to get the input in the given format and print the output in the given format

Input Description: To take an integer value

Output Description: Print the integer value

Sample Input: 2

Sample Output: 2

Explanation: self

Input Description:

To take an integer value

Output Description:

Print the integer value

Completion Status: Completed

Concepts Included:

Input/Output

Language Used: JAVASCRIPT

Source Code:

```
const readline = require("readline");

const inp = readline.createInterface({
  input: process.stdin
});

const userInput = [];

inp.on("line", (data) => {
  userInput.push(data);
});
```

```
inp.on("close", () => {  
  console.log(userInput[0])  
});
```
